RECORD SMASHED.

New Torpedo Boat Does A Pretty Trick.

The Goldsborough Averages 30.84
Knots Over Measured Mile.

It Eclipses Anything Hitherto Attained
In The American Navy.

WASHINGTON, April 9.—So far as the standardizing trial of the torpedo boat Goldsborough goes, it is believed that all American naval records have been smashed by the vessel. A despatch received at the navy department today from Lieut. Comdr. Peters of the trial board, at Seattle, says that the Goldsborough, over a measured mile, attained an average of 30.84 knots per hour.

STORTI REPRIVED.

Boston, April 9.—The executive council met in special session at the state house at noon today to consider the case of Luigi Storti, the Italian murderer, who is alleged to be dying at the state prison in Charlestown, but who is under sentence to be electrocuted this week. After weighing the case, the council voted to recommend that the governor grant a respite until May 11th.

THE WEATHER OUTLOOK.

Boston, April 9.—The weather man tonight prophesies rain for tomorrow, and this is about the only discouraging feature in the weather condition, which has been steadily improving all day. Everywhere along the large rivers throughout New England the water is reported at a standstill or receding. At Nashua, N. H., the Nashua Manufacturing company, which could not operate its mills yesterday, resumed this afternoon. At other points along the Merrimack river, fear of additional damage from the freshets is over.

WHOLE FAMILY KILLED.

CRIPPLE CREEK, CO., April 9.—The entire family of James Smith, consisting of father, mother and four children, were instantly killed here today by the sliding down upon their home of the huge dump of the Granite mine. The house stood just below the base of it. Snows had softened the dump, so that it suddenly came rumbling down upon the dwelling, burying it. Men are now digging away the debris, but it is not thought that any of the family can be alive.

NOW ATTORNEY GENERAL.

WASHINGTON, April 9.—Philander C. Knox of Pittsburg was sworn in as attorney general this morning. The ceremony occurred in the cabinet room of the White house. Justice Shiras of the United States supreme court administered the oath. After taking the oath, Mr. Knox remained with the president until the cabinet assembled.

IN SAMPSON'S FAVOR.

WASHINGTON, April 9.—United States court officials have rendered a decision in favor of Rear Admiral Sampson, for \$3330 bounty, growing out of the engagements at Manila and Nipa bay, Cuba, during the war with Spain. A decision has also been given in favor of Captain Chadwick, who participated in those engagements.

AGUINALDO'S MANIFESTO.

MANILA, April 9.—Although the officials are uncommittal, it is said that Aguinaldo signed the peace manifesto this morning. Chief Justice Arellano drafted the document. Aguinaldo strongly objected to two clauses therein, and considerable argument was required to overcome his objections.

WEATHER INDICATIONS

WASHINGTON, April 9.—Forecast for New England: Cloudy Wednesday, Thursday generally fair, fresh to brisk winds.

GUTTED BY FIRE.

Boston, April 9.—The two upper floors of the five story building, 42 and 46 Arch street, extending through to Devonshire street, and occupied by Whitcomb and Co., electrotypers, were gutted by fire tonight. The other tenants in the structure suffered much damage from smoke and water. The total loss is about \$50,000.

HOBSON'S NEW DUTIES.

WASHINGTON, April 9.—Naval Constructor Richmond P. Hobson has been assigned to special duty in the bureau of construction and repair at the navy department. He will assume his new duties next Tuesday.

UNDERHILL IS DEAD.

MANCHESTER, N. H., April 9.—Underhill, the man who killed his wife at a factory in East Manchester yesterday, died tonight at the Elliott hospital, where he was taken this afternoon.

WANTS BIG INDEMNITY.

LONDON, April 10.—According to the St. Petersburg correspondent of the Daily Mail, Russia will demand an indemnity from China of eighteen million pounds.

AT THE NAVY YARD.

Thomas F. Varrell is on the sick list. The tug Nezinecott is to be overhauled.

Several changes are to be made in the naval band.

The big engines and dynamos in the power house were tested by the contractors on Tuesday.

A new rating for draughtsmen has been received at the yard, which gives the chief \$7.04 per diem and first-class draughtsmen \$6.04.

Lieut. H. Halford, U. S. M. C., received orders Tuesday to proceed to the Philippines for duty. Lieut. Young of the Boston yard has reported as his relief. Lieut. Halford has made numerous friends since he came to this station.

A visit to the dry dock site at the present time and one gets an idea of the immense amount of work that is under the supervision of Civil Engineer Gregory, U. S. N. The well for the powerful pumps which are to empty the mammoth dock. The channel leading from the well to the dock has been cut through solid rock and this will be made a subway from the pump chamber to the dock.

CAR BROKE DOWN.

A flat car carrying a lot of heavy machinery, attached to a freight train that left this station about half past eleven o'clock on Tuesday evening, for Portland, broke down as the train reached Noble's island and made quite a bad mix-up. The wrecking crew was called out to clear the track.

From Washington

How a Little Boy Was Saved.

Washington, D. C.—"When our boy was about 16 months old he broke out with a rash which was thought to be measles. In a few days he had a swelling on the left side of his neck and it was decided to be mumps. He was given medical attendance for about three weeks when the doctor said it was scarlet fever and ordered a saline. He wanted to lance the sore, but I would not let him and continued giving him medicine for about four months when the bunch broke in two places and became a running sore. Three doctors said it was scarlet fever and each ordered a blood medicine. A neighbor told me of a case somewhat like our baby's which was cured by Hood's Sarsaparilla. I decided to give it to my boy and in a short while his health improved and his neck healed so nicely that I stopped giving him the medicine. The sore broke out again, however, whereupon I again gave him Hood's Sarsaparilla and its persistent use has accomplished a complete cure. I do not think there will be even a scar left. I cannot speak too highly of Hood's Sarsaparilla and I recommend it everywhere I get a chance." Mrs. NETTIE CHASE, 47 K St., N. E.

Like Magic.

"A complication of troubles, dyspepsia, chronic catarrh and inflammation of the stomach, rheumatism, etc., made me miserable. Had no appetite until I took Hood's Sarsaparilla, which acted like magic. I am thoroughly cured." N. B. SKELEY, 1874 West 14th Ave., Denver, Col.

If you have failed to get relief from other remedies try Hood's Sarsaparilla. It cures when all others fail, because it is Peculiar to itself.

MAY HAVE LEAGUE TEAM.

Dover Base Ball Franchise Likely To Come Here.

The City On The Cocheco Isn't Showing Enough Interest.

So Manager Mahoney Looks Over Portsmouth For An Opening.

Recent developments make it appear very probable that Portsmouth baseball lovers will be given an opportunity to see some first class sport, the coming season. It seems that the promoters of the proposed Dover New England team are somewhat dissatisfied with the amount of interest manifested in the project in the up river city, and having been considerably encouraged by local followers of the national game are seriously considering transferring the Dover team to this city.

The Gazette has heard rumors to this effect several times during the past two or three weeks, and Tuesday evening a representative of Manager Mahoney of the proposed Dover team called at this office and stated that negotiations were already far advanced, looking toward the placing of a New England league team in this city. In such an event, it goes without saying that Dover will not be retained on the league circuit.

Manager Mahoney will probably visit Portsmouth in person, and confer with the men with whom he has for some time been corresponding. It is proposed to make arrangements, if possible, with the Portsmouth Electric railway, which is to build a branch line to the Plains, to lay out a first class diamond there.

The team would have a salary list of \$750 per month, a decidedly reasonable sum, and a number of local men would undoubtedly be given opportunities to play.

The team Mr. Mahoney has in view would be the strongest this city has had since the days of the Portsmouth New England league team, which, it will be remembered, one year won the championship. Baseball enthusiasts here hope that the negotiations will bear fruit. They feel confident that Portsmouth would prove a much stronger town for the league managers than Dover.

The Plains would be just the place for a baseball field. It is destined to be the junction of several electric lines and will then be within easy access from Exeter, Greenland, Stratham and other towns that would undoubtedly send many patrons to swell the crowds in attendance at the games. The old south end grounds are thought to be out of the reckoning. When the bicycle track was put in there, it practically spoiled them for baseball purposes.

OUR SHAKESPEARE CLUB.

The success of this paper in the recent distribution of Kipling's works will undoubtedly be repeated in the distribution of Shakespeare's works according to the proposition on page two. This offer is a remarkable one and is sure to attract attention from those who appreciate what it means. It will pay everyone to read this offer very thoroughly. The distribution begins next Monday, April 8, when Vol. I will be in order for delivery according to the conditions of the Shakespeare club, conducted exclusively by the Chronicle and Herald in this city. Readers of this paper are enabled to get a complete set of the Cambridge edition, thirteen volumes, for \$2.60 and the coupons printed every day.

DECIDE ON INJUNCTION.

The common council members of the joint standing committee on fire department held a meeting, on Tuesday evening. It was agreed that the aldermanic members of this committee had shown a very evident inclination to ignore the councilmen on every possible occasion, when action by the joint committee was proposed, and a vote was passed to put an injunction on all the business that they have done, to date, without consulting all the members of the committee.

The Herald has all the latest news.

NATIONAL GUARD MATTERS.

The Latest General Orders of Interest to the Public as Well as to Members.

To conform to recent regulations of the war department, the following changes in relation to insignia for officers' address coats, and chevrons and cap ornaments for certain enlisted men, are published for the information and government of the New Hampshire National Guard.

Regimental and battalion adjutants, quartermasters, paymasters, surgeons and assistant surgeons will wear in the lower angle of their insignia the devices (of gold or gilt metal) of the respective staff department to which their duties correspond.

Insignia—Adjutants, a shield. Quartermasters, a sword and key crossed on a wheel surmounted by a spread eagle looking to the front. Paymasters, a diamond, shorter angle vertical. Surgeons and assistant surgeons, a modification of the cross of St. John, the center plain and the cross without border.

Chevron—Hospital stewards, three bars and an arc of one bar of emerald green cloth, inclosing a modified maltese cross of the same cloth, the bars and cross to have a narrow white border. Privates of the hospital corps, a modified maltese cross of emerald green cloth, having a white border, to be worn on both sleeves of the blouse, midway between the elbow and shoulder. Color sergeant, three bars and a star.

Cap ornaments—Hospital stewards, a modified maltese cross of German silver, inclosed by a wreath of dead or unburnished gilt metal. For privates of the hospital corps, the same without the wreath.

A RAGING, ROARING FLOOD

Washed down a telegraph line which Chas. C. Ellis of Lisbon, Ia., had to repair. "Standing waist deep in icy water," he writes, "gave me a terrible cold and cough. It grew worse daily. Finally the best doctors in Oakland, Neb., Sioux City and Omaha said I had Consumption and could not live. Then I began using Dr. King's New Discovery and was wholly cured by six bottles." Positively guaranteed for Coughs, Colds and all Throat and Lung troubles by the Globe Grocery Co. Price 50c. and \$1.00. Trial bottles free.

Pan-American Exposition

STATE NEWS.

The Hillsboro town farm has been sold for \$1975.

A wedding party was interrupted at Concord on account of the flood.

The Y. M. C. A. building in Keene was re opened for business, April 6.

It is reported that a Catholic mission is to be established in West Lebanon.

Martin V. B. Drew, a veteran, died in Dover Monday, aged sixty eight years.

All the milk producers up through the state claim that they are gaining in the milk war.

The Manchester police arrested four men and secured a dog at a dog fight on Monday night.

A thief in Somersworth got away with four rubber coats from a fire station in that town recently.

Both Manchester and Nashua are to have new court houses at a total expense of \$130,000 divided equally.

There is a new case of varioloid in Keene in a French family. There are also two new cases of scarlet fever.

Another lot of animals was shipped from Corbin's park recently. Some of the lot are to be shipped across the water to European countries.

The Newmarket Manufacturing Co. have recently imported from France a machine which does the work of a carding machine on fine cotton. It has been set up and instruction in operating given by a gentleman from Paris, France.

Exeter river has fallen about eight inches below Monday's high water mark and no further damage is feared. Kensington road is still impassable.

IN THE LADIES' HONOR

Athletic Club Entertains Members Of Fair Sex.

Rainy Weather Does Not Prevent Success Of The Event.

After Whist Come Refreshments And Then There Is Informal Dancing.

The inclement weather on Tuesday evening had no depressing effect upon the success of the ladies' night conducted by the Portsmouth Athletic club, at its building on Market street. Fully four score bright representatives of the gentle sex were present. They were most hospitably welcomed from eight to 8:30 by a reception committee that made them quite at home at once.

At half-past eight o'clock, whist tables were brought out. Twenty of them were required, to accommodate all who desired to take a hand at the game. After playing for one and a half hours, the following favors were awarded: Ladies' leading prize, cut glass dish, Miss Laura Baddock; second, fancy decorated plate, Miss Baker; gentlemen's first, ivory-handled silk umbrella, George Downing, who won the cut from E. H. Fisher, with whom he was tied, Mr. Fisher, receiving second prize, a silver knife.

After the cards had been put aside, Reich catered finely to the appetites of the assembly, serving cakes and ices in various forms. Then informal dancing commenced and continued until midnight. The music was furnished by the members of Joy and Philbrick's orchestra, who played at their very best.

Special cars were in waiting outside the clubhouse at the breaking up of the merry gathering, to carry to their homes all who preferred not to walk through the drizzle.

The occasion had been generously planned and was cleverly carried out, so that all who shared in the courtesies extended by the clubmen voted the evening replete with pleasure throughout.

The committee upon which devolved most of the responsibility and work of arranging for the event comprised President Fred H. Ward, Vice President Simpson, Fred Hills, J. W. Newell and C. E. Trafton. These gentlemen did their duty well.

COMPLIMENTARY LETTER.

W. Henry Smith of this city has received the following letter from Speaker Cyrus H. Little of the New Hampshire house of representatives:

Mr. William H. Smith, Portsmouth, N. H.

Dear Mr. Smith:—I expected to see you again before I left Concord, but came away earlier than I expected the closing day of the session.

I wish to congratulate you on the efficient manner in which you performed the duties of library messenger, and to thank you for your kindness to me personally.

Wishing you many years of happiness, I am,

Yours most truly,

O. H. LITTLE.

DARTMOUTH DRAMATIC CLUB.

The Dartmouth Dramatic club will appear at Music hall this Wednesday evening for the benefit of the Portsmouth High School Athletic association.

Several of the Dartmouth students who reside in this city are arranging a dance to be held in Peirce hall immediately after the play is finished.

Concordance.
Index to Characters, Etc.

A REMARKABLE COMBINATION FOR PUBLIC SERVICE

The Herald Shakespeare Club

The Plan.

The riddle of the sphinx has been solved. The greater riddle that is now agitating the literary world, "Did Shakespeare write the plays credited to him?" may never be. But it will not be for want of investigation. In the past year over a thousand Shakespeare Clubs have been organized to study the discoveries recently made to the "Cipher on the Tombstone" and the Cipher in the Plays themselves. The members want the text in the Cambridge edition, at a price that is not practically prohibitive, and in response to their demand twenty-five of the most prominent newspapers have united to print such an edition, for their subscribers and readers only, in handy pocket size, thirteen volumes, with the celebrated "Notes" by Israel Gollancz. By making an edition of 50,000 sets, the first or manufacturing cost of each volume has been so reduced that a handsome cloth-bound volume can be produced for 20 cents. This is less than one-fifth the cost of any similar edition. The special Shakespeare Club edition will be limited to members of the Clubs and Newspapers only, and The CHRONICLE and HERALD will control all that are taken in Portsmouth.

The Price to Members.

Each subscriber and reader of The CHRONICLE and HERALD will be considered a member of The CHRONICLE and HERALD Shakespeare Club and entitled to purchase the set of thirteen volumes at 20 cents a volume at The CHRONICLE and HERALD office, or 25 cents postpaid, so long as the edition lasts. The edition is limited and will not be reprinted at this price or any price near it. This edition absolutely eliminates all profits of dealers and middlemen, and all cost of advertising (which comprises 75 per cent. of the cost of every book,) giving them to the subscribers. They can secure them in no other way than this Newspaper edition provides for. When this edition is exhausted, the distribution at this price necessarily ends. This paper does not agree to fill orders, but only such orders as it may receive while the edition lasts.

The Text, Notes and Index.

The "Cambridge edition" is the text edited by William George Clark and William Adis Wright, and follows generally the text of the first folio. It has been carefully followed for this edition and the notes by Israel Gollancz are those used in the famous Temple edition, and are as nearly perfect as scholarship can make them.

The greatest charm of this edition is the thirteenth or extra volume. This is a glossary, concordance, and index of first lines, alphabetically arranged, enabling the reader to instantly refer to any character or quotation he may wish to find. It is an invaluable aid to every reader, student and writer, specially made for this edition.

The Style of Manufacture.

The thirteen volumes are gems of the printer's and book-binder's art. The paper, press-work and binding are of the very best. The type on each page is six inches long by three inches wide, in long primer, and there are 4,000 pages of this size. These make thirteen bound volumes, four inches wide by seven inches long, of about 300 pages each, including an index volume of 320 pages. Handsome illustrations are frontispieces to the volumes.

The binding is in embossed cloth, not only very durable, but very handsome. Each volume has the new patent stitching, and can be bound backward, without injury. Eight volumes contain three plays each, and the twelfth volume contains one play and all the miscellaneous poems. The thirteenth volume is an index, glossary and concordance to all the plays.

Taken together, it is an edition for the book lover as well as the student, and is in fact the only absolutely perfect edition—in text, in quality, in size, in notes, in glossary and index at anywhere near the price.

HOW TO SECURE THE VOLUMES AT 20 CENTS.

CITY READERS' VOUCHER.

Good for One Volume

of SHAKESPEARE'S WORKS, bound in cloth, when presented at the PORTSMOUTH HERALD Office, together with Twenty Cents.

Out-of-Town Reader's Voucher.

Good for One Volume

of SHAKESPEARE'S WORKS (club edition) when mailed to The PORTSMOUTH HERALD with Twenty-five Cents.

If you are a reader of this paper and reside in Portsmouth, and can call at this office, you will need this voucher to show that you are a reader. You can thus secure the entire set of 13 volumes by means of these vouchers for \$2.60.

See the Calendar for Dates of Distribution

If you are an out-of-town reader of this paper be sure and clip this voucher, write your name and address very plainly, and enclose 25 cents for each volume desired. They will be mailed free anywhere within the United States.

Send all orders to the Shakespeare Department, The Daily Herald, Portsmouth, N.-H.

TEACHER'S HEROIC ACT

Saves Lives of Her Thirteen Pupils.

SCHOOLHOUSE FLOATED AWAY.

Floods Carried Building From Its Foundations.—Girl Teacher Swam Home to Bank and Moored the Structure Just in Time.

Harris, N.H., April 9.—In Saint county a little frame school building is located in a glade on a bank of the White river, which has been flooding its bank during the recent thaw.

When Miss Lizzie Cotton, the teacher, arrived at school, she found the building surrounded by water. Gradually the water began to undermine the foundations of the building until the supports were giving way. The brave teacher closed the school and, pledging the pupils to remain inside, plunged in to the torrent.

By this time the water was waist deep, and wading to a barn near by she got a horse and a rope. Returning to the building, which was now afloat, she fastened one end of the rope to the door-sill and the other around the horse's neck. Then she heaved for land, keeping the horse's head above water to prevent it from being drowned.

Landward, Miss Cotton secured the rope to a tree and landed a farmer, who came to her assistance. In this way the 13 pupils were safely landed. The citizens and county council members are discussing plans for rebuilding Miss Cotton's school.

Governor Allen Sees Mr. Root.

Washington, April 9.—Governor Allen of Porto Rico yesterday had a long conference with Secretary Root. The secretary was greatly interested in the details of the organization of the new Porto Rican regiment which will be recruited from natives of the island. The governor made arrangements to exchange the arms of the island police of Porto Rico. "I like numbers 600 men and graven very perceptible in riding the cutting districts of land." They

Botha to Renew Negotiations.

London, April 9.—"It is declared in London quarters in this city," says the Brussels correspondent of The Morning Post, "that General Botha will shortly renew the peace negotiations."

habitants. They are armed with old-fashioned Springfield, but by the arrangement made yesterday these will be exchanged for the latest pattern of breech-loading carbines.

McCormick Boy Still Missing.

New York, April 9.—The whereabouts of the missing Willie McCormick are still unknown. The police of Red Bank, N. J., thought they had discovered the lad in the person of a boy seen with a man who was lurking in that town. It turned out, however, that the Red Bank strangers were William Healy and his son of Trenton, who were on their way to Long Branch. A New York city detective and a playmate of the McCormick boy visited Red Bank yesterday afternoon, and the playmate at once said that the stranger was not the missing McCormick lad.

Boat's Homeward Bound.

Washington, April 9.—The navy department received a cable from Commander Sargent of the Scorpion announcing the departure of that vessel from La Guayra, Venezuela, for San Juan. Although no mention was made of Minister Louis in the dispatch, it is understood that he is aboard the Scorpion and will be transferred at San Juan to a merchant steamer for conveyance to the United States. He will arrive at San Juan on Wednesday evening or on Thursday morning, and it is expected a steamer there promptly should be in New York on April 15.

Porto Ricans Beg For Aid.

New York, April 9.—Senator Santiago Iglesias, delegate of the Federation of Labor of Porto Rico, arrived in this city yesterday on the steamer Ponce from San Juan. He is the bearer of a petition which the Porto Rican labor men wish to present to President McKinley. In their petition, which bears 6,000 signatures, the Porto Ricans beg for work. "They ask that they be given relief at once."

Botha to Renew Negotiations.

London, April 9.—"It is declared in London quarters in this city," says the Brussels correspondent of The Morning Post, "that General Botha will shortly renew the peace negotiations."

Wine Suit Against Erie Railroad.

Middletown, N. Y., April 9.—After seven years of litigation in the trial courts of Orange county and the appellate courts of the state the case of George Miller of this city against the Erie railroad has been finally decided in the court of appeals in favor of Miller. The plaintiff, who was sold a ticket to a point on the road where his train did not stop, was finally compelled to alight at another station and brought suit for breach of contract. Judgment for \$50 was granted on trial, but the final costs and disbursements now aggregate about \$1,500.

Trout For The President.

Saville, N. Y., April 9.—President McKinley has been sent a box of trout by the members of the Sportsmen's club at Oakdale. A dozen of the finest fish caught this season were selected. They were caught in the pond the waters of which run the historic mill that has stood nearly 200 years. From this pond all the presidents of the United States have been supplied with trout since the days of Washington, with the exception of President Cleveland, who was amply supplied by other clubs.

Denn Farens III.

London, April 9.—The Very Rev. Frederick Farrer, dean of Canterbury, whose condition has for the last few days caused anxiety, shows no improvement.

Strike at Idle Hour Ends.

New York, April 9.—The strike at William K. Vanderbilt's summer home, Idle Hour, Oakdale, Long Island, has been declared off, and all the strikers, 175 in number, have returned to work. The strike was settled through the intervention of Mr. Vanderbilt himself, who is in a hurry to have the building finished. A strike in any one of the trades would delay work on the entire building. The original trouble was between the plumbers and steam fitters, and the other trades struck in sympathy with the union of plumbers represented in the board of walking delegates of this city. The strike was settled by the discharge of men not represented in the board, and work is to be rushed now until the building is completed.

FIRE IN OTTAWA.

Theater Destroyed and Hotel Damaged.

Ottawa, April 9.—A fire which started in the Russell House block at 1:45 o'clock this morning destroyed the Russell theater, one of the finest playhouses in Canada, and damaged the Russell House, one of the principal hotels in this city, before the firemen succeeded in gaining control over the flames. These buildings, with two others, occupied the block bounded by Queen, Elgin, Canal and Sparks streets. The total loss is estimated at \$100,000.

The fire spread from the theater to the hotel with great rapidity and forced some of the 200 guests to make their escape in their night clothing. To add to the confusion the electric light wires were cut, leaving the hotel in total darkness. All the guests escaped, however, without injury.

"The Belle of New York" opera company played in the theater last night, and a last scene, and costumes had been left in the building were lost. The company leaves the city this morning, and some of their effects had been removed to the depot.

Pesides the hotel and the theater, the block contained the office of The Free Press, and another portion of it was occupied with offices. The loss on these is small.

Serious Trouble in Mexico.

Laredo, Tex., April 9.—Reliable reports of a riot occurring yesterday at Laredo, Mexico, a station on the Mexican National railroad 70 miles distant, have reached here. It appears that the government of Mexico had been informed of a reported revolutionary occurrence at that place, and yesterday morning the military stationed there arrested four prominent citizens. When they were taken to the depot en route to Monterey, a mob headed by Francisco Matamoros, son of the famous General Matamoros, appeared at the depot. In the excitement that followed one of the prisoners escaped. As soon as the train left the leaders of the mob rushed to General Matamoros's estate, where they are at present surrounded. As soon as the government heard of the disturbance 500 soldiers from Monterey were dispatched to the scene by special train.

CUBAN TRADE.

France and Germany Have Benefited by Spain's Loss.

Havana, April 9.—In an interview regarding the trade between the United States and Cuba a prominent merchant said that since the American intervention Spanish imports into Cuba had largely diminished owing to the abolition of protection, but what had been lost by Spain had not been gained by the United States, but by France and Germany. Owing to the uncertainty regarding the conditions here the supplies required for use in the country, such as ironwork, machinery and barbed wire, in all of which the United States would compete, have not been imported to a large extent, whereas hats, cotton and linen fabrics, notions and haberdashery are not affected to such an extent by the uncertain situation. These goods are largely imported from France, Germany and England owing to the fact that they produce them cheaper or study the Cuban market more than the United States.

He added that if the present uncertainty continued much longer it would produce dire results. What is now happening in Cuba is unique in the history of the world—namely, that the people are in the power of those who have nothing to lose and who represent to property interests. Concessions by the United States concerning Cuban sugar and tobacco are essential to the prosperity of the island, and protection by Cuba of American manufactured goods would greatly benefit American trade.

Senor Giner has been elected mayor of Havana by the city council to fill the vacancy. It was decided at a meeting of the National party, to which 21 of the councilmen belong, that Senor Giner should be the candidate of that party. Senor Zayas is president of the minority representation.

Postmasters Appointed.

Washington, April 9.—The following fourth class postmasters have been appointed:

Connecticut—Ablington, A. N. Vaughan; Bolton, Nohel W. E. Rice; Massachusetts—East Norton, G. S. Wood.

New York—Currytown, A. J. Devan.

Carpenters' Strike in Cleveland.

Cleveland, April 9.—If the contracting carpenters do not grant the requested advance of 5 cents an hour, the entire body of union carpenters in this city threaten to strike within a few days. Already 500 carpenters are idle because of the refusal, and their brethren, who number about 1,300 more, may join them. At a meeting of the carpenters' union many of the men advocated a strike as the quickest manner of a settlement of the question between employers and employees. The men demand 32½ cents an hour.

Turkish Freemasons.

London, April 9.—The Turkish Freemasons have sent to King Edward a curious appeal on behalf of the unfortunate Monrad, elder brother of Abdul Hamid, who reigned as sultan of Turkey under the name of Amurath V. for three months and was then deposed on the ground of insanity. The appeal refers to him as "one who for the last quarter of a century has been imprisoned on the pretext of a mental malady" and begs King Edward to use his influence to secure the freedom of a brother Mason.

Protest Against Canal Bill.

Albany, April 9.—A protest against the proposed expenditure of \$20,000,000 for canal improvement work was submitted last night to the senate and assembly. It was signed by Elliot B. Norris, master of the New York state grange, Patrons of Husbandry; Louis Ward, president of the New York state farmers' congress, and John I. Platt, secretary of the New York state Tax and Transportation Reform association.

Flour Mill Burned.

Ogdensburg, N. Y., April 9.—The Proctor Flouring mill at Waddington, operated by Michael O'Brien, has been burned; mill loss, \$10,000; operator's loss, \$3,000; both partially insured. The origin of the fire is unknown.

Weather Forecast.

Fair; fresh to brisk northerly winds.

TO CURE A COLD IN ONE DAY
Take Laxative Bromo Quinine Tablets.

PORTSMOUTH, KITTERY & YORK STREET R.Y.

Spring Arrangement, 1901.

WEDNESDAY, APRIL 10, 1901.

O, April, dry your eyes. Cheer up; it may not be so.

The ribs of the old umbrella are aching and it needs a rest.

The news of the day is principally milk and water, remarks the Concord Monitor.

The milk war goes merrily on. The blood of the farmers up the state seems to be up.

There is a lot of method in this Easter wedding business. It makes the expense of a bonnet answer for two purposes.

Both sides in South Africa seem to be getting their breath and waiting for the second round or the referee's decision.

Powers of Maine will be a power. The rain and the bad roads interfered more with his majority than the democrats.

The British are taxing mineral water. "As free as water" will not sound well hereafter in a country that has to tax the fluid to pay for fighting the Boers.

If Aguinaldo has the good sense that has been attributed to him by his Boston friends he will, in writing his manifesto, say something about less noise at the Hub.

The powers would like to find out just what Russia proposes to do in Manchuria, but the ministers of the czar persist in talking in riddles and Japan continues her preparations for war.

Mark Twain's reply to his missionary critics, in the current number of the North American Review, proves one thing at least, and that is, the genial Mark wields the same trenchant pen as of old.

It is a credit to the Massachusetts newspapers, that while they insist that their state shall not support paupers that ought to be supported by some other state, they condemn the methods by which a helpless woman was cast adrift in New Hampshire by the Massachusetts authorities. In this connection the Boston Advertiser says, that with all due respect to the Massachusetts board of charities and making due allowance for their belief that the woman would be supported somehow in New Hampshire, it hardly seems decent for a state official to take an insane woman up to the New Hampshire boundary and then leave her with a tag pinned to her dress, in the blissful hope that some one may care for the wretched woman. It is probably true that the insane patients had been born in New Hampshire and that it was the duty of some town somewhere in New Hampshire to care for her decently. Still, until it was certain just where her proper destination should be, to cast her adrift in that fashion was not a kindly or a humane act.

Every day there are examples of what the United States is doing in the grand work of helping our new citizens on their feet. When it is noted that under civil government Porto Rico has been enjoying a prosperity beyond any it has known before, and that under the American military occupation Cuba has made a great advance in the ways of tranquillity and industry, the date of July 1st which has been set for the inauguration of civil government in the Philippines, even although it will eventually be superseded by congress, must be regarded as auspicious for the future of the archipelago. The organization of the separate provinces has been steadily pushed and will be completed by the time a general scheme of government is ready to be inaugurated. With an efficient, enlightened and sympathetic administration throughout the Philippines, and some obstacles removed, it is more than a hope that the progress of the islands from the start shall be such as to make

secure the prospect for unbroken peace and entire good will hereafter.

WHAT IS ADVERTISING?

It is simply a matter of multiplication. The self made man starts with little or nothing.

He has visions and schemes and hobbies, just like the rest of us. He makes an experiment and loses a little money and gets the blues and then gets over the blues and makes more experiments.

Sooner or later he gets on the right track. He starts some business on a small scale and begins to make a little money.

Then he looks for a way to multiply the business by two or three.

In about ninety nine cases out of the hundred the growth of the business hinges upon selling more goods—upon interesting more people, upon publicity, upon newspaper advertising.

Because he has but little money he begins carefully, and because he begins carefully—on such a small scale that he can keep at it and wait a reasonable time for results—he finds his advertising profitable.

As the business expands his ideas of the possibilities before him expand. He figures on some more multiplying. More newspaper advertising—because he is persistent and patient and careful about the preparation of his copy—again doubles or triples his business. Hollis Corbin, in Mansfield, O. News.

HORSE SHOW.

Of course you are coming to it and we invite you to occupy some of your spare time in inspecting our repository which contains the largest stock of vehicles in the world, consisting of Hacks, Landaus, Coupes, Barges and Pleasure Vehicles, one and two horse wagons, new and second-hand, over 2500 in stock.

Mass.

SHIPFITTERS MAY ORGANIZE.

It is possible that the shipfitters at the Charlestown navy yard may form an association that they may better protect their trade from impostors. Already the shipfitters of the Norfolk and Brooklyn yards have organized, and if an association is formed in Charlestown, it will probably become a branch of the general association. Never before have the men in this trade been banded together. The men claim that the present movement is not designed to gain additional advantages from the government, but that it is simply to protect the shipfitters themselves against inefficient workmen who seek employment at the trade at reduced wages and reflect discredit on the whole body. In Norfolk and New York a man who applies for membership is watched two days before the application is passed upon.

Baby's Birth.

How many a woman dates a life of chronic invalidism from baby's birth. She tries "different doctors and different medicines" with little benefit.

Dr. Pierce's Favorite Prescription is called to the remarkable cures resulting from the use of Dr. Pierce's Favorite Prescription, and she gives the medicine a trial. Her experience is that of ninety-eight women out of every hundred who use "Favorite Prescription" for womanly ills—she is cured.

Dr. Pierce's Common Sense Medical Advertiser, paper bound, is sent free on receipt of 21 one-cent stamps to pay expense of mailing only. Address Dr. R. V. Pierce, Buffalo, N. Y.

KITTERY.

Mr. Fred Ford Locke is visiting his home in town this week.

Mrs. Henry B. Shaw is restricted to her home by an attack of illness.

Joseph Wilson Hobbs is passing a few weeks in town, the guest of his mother, Mrs. Mary Hobbs.

The Rev. Charles LeV. Brine, rector of Christ church of Portsmouth, was a visitor in town on Tuesday afternoon.

There will be a regular meeting of Whipple lodge of Good Templars at Westworth hall this Wednesday evening.

The tug Howell towed a barge load of lumber to Kittery Point today, the lumber to be used in the erection of a house there.

Mr. and Mrs. Walter Lutts have been called here from Bath, by the critical sickness of Mr. Lutts's sister, Miss Zina Lutts.

The steamer Kittery is running today in place of the Alice Howard, which has been hauled off for repairs, which will take several days to be made.

Alfred Lathrop and Will Bowden, who have been employed at the New London shipbuilding works of Mr. Charles R. Hanscom, have returned home.

There will be a large number from Kittery and York who will attend the performance of Sherlock Holmes at Music hall, Portsmouth, tomorrow (Thursday) evening.

Patches of green grass are appearing in the country and the buds on the trees are visible in a number of cases. A week of warm sun would give a remarkable start to green things.

Passengers to York beach and to Sea Point on the electric railroad this week have witnessed some pretty sights as a result of the high sea that is running in along the coast. The big waves are still rolling in and it is well worth a trip for no other purpose than to get a sight of the spray.

It is learned with great regret that the condition of Miss Zina Lutts is constantly growing unfavorable and that her case has been pronounced as almost hopeless. Miss Lutts was still alive at half-past one this afternoon, but was said to be slowly sinking. It is sincerely wished throughout the community that her life may be spared.

The L'Inconnu club will give another of its popular assemblies at Wentworth hall next Friday evening. These assemblies have been attended with a great deal of pleasure by the young people in the town during the past winter, and the idea of every-other-week gatherings of this character has been most happily carried out.

The building up of Gerrish Island goes on year after year and every spring shows many additions to the summer homes there. The place, one of the most beautiful of all places on the coast, is now a veritable summer township of handsome residences filled by an exclusive and desirable class. "The golf course on the island is said to be one of the finest in this section and the increasing popularity of the sport will make the links there more attractive than ever before, the coming season. The building up of Gerrish island and the select circle that is maintained there is due most to Mr. S. Ellery Jenkinson, who finds the island a pleasant home place the year round and whose appreciation of the beauties of nature is well shown in his choice.

POLICE NEWS.

There were eleven lodgers on Tuesday night.

A new floor is to be laid in the police court room at the station and a part of the old floor has already been torn up.

Two marines who got into a scrap in front of the Portsmouth Savings bank, early on Tuesday evening, were arrested by City Marshal Entwistle and Special Officer Hodgkins.

The streets are kept muddy by the continual downpour.

CONTESTANTS ARE MOVING

Mr. Lynch, Mr. Varrell and Mr. Fernald Receive Votes.

Mr. Lynch Receives a Fine Tribute With the Votes.

'Goodrich No. 4' Writes that Firemen Are Backing Mr. Fernald.

There is a little something doing in the Pan-American contest today, if you take the trouble to look at the figures and see the changes from Tuesday.

The contestants are crawling up to bigger figures. Their friends from all sections are looking out for the votes and send them in as they feel that the action is timely.

Mr. Lynch, Mr. Varrell and Mr. Fernald have received votes today and Mr. Lynch's votes were accompanied by a letter that anyone might feel proud to have written about them. It will make Mr. Lynch modestly take off his hat, when he reads it. Read it yourself.

Mr. Fernald gets a substantial advance and the votes for him came with a letter from a fireman. It ought to encourage him.

Of course Mr. Varrell got some votes today, too. They came in a letter with an out-of-the-city postmark.

Harold N. Hett, Portsmouth Bicycle club,

John F. Leary, A. O. H.,

Dennis J. Lynch, Kearsarge Engine Co.,

Col. John P. Tibbets, Gen. Gilman Marston command, U. V. U.,

Charles D. Varrell, Sagamore S. F. E. Co.

Charles W. Hanscom, K. G. E.

William S. Fernald, Chemical Engine Co. No. 5,

Edwin F. Howe, Warner club

Charles H. Kehoe, M. H. Goodrich Co.,

John Ham, W. J. Sampson, H. & L. Co.

Fred Manson, M. H. Goodrich Co.,

W. J. Kehoe, P. C. C.,

Capt. Horace E. Pevely, Co. B, N. H. N. G.,

John A. Harmon, assistant engineer, P. F. D.

George Jones, Kearsarge Engine Co.

Votes For Mr. Fernald.

That's Right, Too.

PORTSMOUTH, April 10.
Mr. Editor:—Here are 52 votes for Dennis J. Lynch, a nice fellow and a man that knows how to treat a person.

FRIEND.

Editor Voting Contest—Enclosed find 181 votes for W. S. Fernald, the popular driver of our up-to-date Chemical.

We mean to land him in the first place for the prize.

GOODRICH 4.

The conditions of the contest are as follows, a most liberal offer:

The Portsmouth Herald agrees to send three residents of Portsmouth, who are either members of the Portsmouth fire department, a social club or of some secret society, to the Pan-American exposition, pay all their expenses from the time they leave, until they return, including a week in Buffalo, with board and lodging and admission to the exposition daily.

This offer beats anything ever announced by any newspaper in New England, and is so far above the expense and interest of a trip to the national inauguration that it cannot be mentioned in the same class.

The contest will not be restricted to gentlemen but will be open to any lady who is a member of the various secret societies or auxiliary societies in Portsmouth.

The trip will include stop over privileges on route and returning and first class accommodations will be provided. In order that every detail of the grand tour may be properly looked after, the publishers will either send an agent in advance or with the party to make arrangements.

Everybody knows that the Pan-American exposition at Buffalo is to be grander and greater in every way than the World's fair and the visit will be the event of a lifetime.

The contest opened on Monday, March 4, when the first ballot appeared and which will appear daily until June 1, next, the last ballot to appear on the latter date, and the three persons having the greatest number of votes will have the grand privilege that has been offered. The last ballots must be received at the Herald office by 7:30 p. m. on Wednesday June 5, and the results of the contest will be announced at the earliest possible date.

This is an opportunity never before equalled in this section of the country and well worth the attention of every one eligible for such a trip. Vote early and vote often. Elect yourself.

NERVOUS DYSPEPSIA.

A CURE FOR IT.

Not a Patent Cure-all, nor a Modern Miracle, but Simply a Rational Cure for Dyspepsia.

In these days of humbuggery and deception, the manufacturers of patent medicines, as a rule, seem to think their medicine will not sell unless they claim that it will cure every disease under the sun. And they never think of leaving out dyspepsia and stomach troubles. They are sure to claim that their nostrum is absolutely certain to cure every dyspeptic and he need look no further.

In the face of these absurd claims it is refreshing to note that the proprietors of Stuart's Dyspepsia Tablets have carefully refrained from making any undue claims or false representations regarding the merits of this most excellent remedy for dyspepsia and stomach troubles. They make but one claim for it, and that is, that for indigestion and various stomach troubles Stuart's Dyspepsia Tablets is a radical cure. They go no further than this and any man or woman suffering from indigestion, chronic or nervous dyspepsia, who will give the remedy a trial will find that nothing is claimed for it that the facts will not fully sustain.

It is a modern discovery, composed of harmless vegetables, ingredients acceptable to the weakest or most delicate stomach. Its great success in curing stomach troubles is due to the fact that the medicinal properties are such that it will digest whatever wholesome food is taken into the stomach, no matter whether the stomach is in good working order or not. It rests the overworked organ and replenishes the body, the blood, the nerves, creating a healthy appetite, gives, refreshing sleep and the blessings which always accompany a good digestion and proper assimilation of food.

In using Stuart's Dyspepsia Tablets no dieting is required. Simply eat plenty of wholesome food and take these Tablets at each meal, thus assisting and resting the stomach which rapidly regains its proper digestive power, when the Tablets will be no longer required.

Nervous Dyspepsia is simply a condition in which some portion or portions of the nervous system are not properly nourished. Good digestion invigorates the nervous system and every organ in the body.

Stuart's Dyspepsia Tablets are sold by all druggists at 50 cts. per package. They are manufactured by the F. A. Stuart Co., of Marshall, Mich. Any druggist will tell you it gives universal satisfaction.

FIRST MACKEREL CATCH.

Coveted Honor Captured by Captain Jacobs of the Gould.

A despatch received in Gloucester on Monday afternoon from Capt. Solomon Jacobs of the schooner Helen Miller Gould, dated Fortress Monroe, Va., states that the vessel arrived at that place with 40 barrels of mackerel, taken near Body island.

These are the first mackerel taken this season. The honor of taking the first fish is one highly prized by Gloucester fishermen, and there is much rivalry on this score. The fish were shipped to Fulton market, New York.

JOB COULDN'T HAVE STOOD IT

If he'd had Itching Piles. They're terrible annoying; but Bucklen's Arnica salve will cure the worst case of Piles on earth. It has cured thousands. For Injuries, Pains or Bodily Eruptions it's the best salve in the world. Price 25c. a box. Cures guaranteed. Sold by the Globe Grocery Co.

THE SHAKESPEARE CLUB.

The first distribution of Shakespeare's works, although late in arriving, was quickly made and the entire number ordered were soon disposed of. More numbers of the first volume have been ordered and will be ready for distribution on Friday, when the second volume may be obtained, also.

COPPER IS KING

A SAFE INVESTMENT AND A SURE FORTUNE

can be made buying Copper Shares now at the present price of 15 cts. per share. Ten cts. selling at least.

\$100 FOR EVERY \$10 YOU INVEST

The Copper Cliff Mine, Co. owns 4 Copper mines in Kern Co., Calif. Ore assays per ton 250 Copper, 217 Gold, 216 Silver. Ore from the surface down is rich enough to pay all mining, transportation and smelting charges and leave handsome profit. Dividends can be earned and paid without building and operating a smelter or other expensive plant. Reports report prices contain millions tons ore. Stock is full paid and non-assessable. \$1.00 per share. We want money enough to develop and take the ore out from the mines and now offer a limited amount of stock for a short time.

**\$15 BUYS 100 SHARES
\$25 BUYS 170 SHARES**

We are so confident that stock will go up that we guarantee that after twelve months from date you cannot buy a share of this stock from the Copper Cliff Mining Co. for less than its par value, \$1 per share.

Copper shares have made investors many fortunes the last year. In 1898 a servant in the family of Prof. Agassiz asked him to invest \$250 for her. He invested it in 50 shares of copper stocks. The compound interest and dividends, added to the present market value, amount to \$250,000. Group this opportunity and do likewise, you cannot lose. Get rich. Buy a few shares before they advance. Send money by draft, express, registered letter, or put office order for as many shares as you wish, to

W. M. REED, Investment Broker, 139 S. 5th St., Philada., Pa.

CEMETERY LOTS CARED FOR

AND TURFING DONE.

BADLY HURT.

Portsmouth Man, Frank Faulkner,

Fell at Navy Yard this Afternoon.

Frank Faulkner, aged about 45 years, of Portsmouth, a shipfitter employed on the Reina Mercedes at the navy yard, fell into the hold of the ship at 2:30 this afternoon and is very badly hurt.

He has been taken to the naval hospital for treatment.

TO LEAVE SOON.

Rev. Fr. Joseph Creeden, assistant pastor at the Church of the Immaculate Conception in this city, will leave soon for another place.

Portugal a Dog in the Manger.

In the 500 years in which he has claimed the shore line of East Africa, from south of Lourenco Marques to north of Mozambique and many hundreds of miles inland the Portuguese has been the dog in the manger among nations. In all that time he has done nothing to help the land or the people which he pretends to protect, and he keeps those who would improve both from gaining any hold or influence over either. His strip of land is still unsettled and unsafe, its wealth undeveloped, its people untamed. —Scribner's.
